WARRANT FOR STATE ELECTION

November 8, 1966

Norfolk ss.

To either of the constables of the Town of Bellingham:

GREETING:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said Town who are qualified to vote in Town affairs to meet at the Polling Places of their respective precincts, to wit:

Tuesday, November 8, 1966:

Precinct No. 1 — Police-Fire Station

Precinct No. 2 — North Community Building

Precinct No. 3 — Murray Mem. Building

at 10:00 A.M., then and there to bring in their votes for the following State and County Officers:

Senator in Congress, Governor, Lieutenant Governor, Attorney General, Secretary, Treasurer, Auditor, Representative in Congress (one), Third District, Councillor (one), Second District, Senator (one) Second Norfolk District, Representative in General Court (one) Twelfth Norfolk District, District Attorney, Norfolk District, Register of Probate and Insolvency, Norfolk County, County Commissioner, Norfolk County, County Treasurer, Norfolk County, and to vote on the following Questions:

QUESTION No. 1 —**PROPOSED AMENDMENT TO THE CONSTITUTION**

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held June 11, 1963, received 228 votes in the affirmative and 29 in the negative, and in joint session of the two branches held May 5, 1965, received 225 votes in the affirmative and 24 in the negative/?

SUMMARY: The proposed amendment provides that at state elections candidates for Governor and Lieutenant-Governor shall be grouped on the official ballot according to the party that they represent and that it shall not be possible to vote for Governor and Lieutenant-Governor except as a partisan group.

QUESTION No. 2 —

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held July 16, 1963, received 169 votes in the affirmative and 100 votes in the negative, and in a joint session of the two branches held May 5, 1965, received 200 votes in the affirmative and 61 in the negative.

SUMMARY: The proposed amendment provides that Governor, for the purpose of making certain structural changes in the executive department, may from time to time prepare reorganization plans to be presented to the General Court. If the General Court fails to disapprove a reorganization plan within sixty days of its presentation and has not prorogued by the end of such sixty days, the plan at that time shall have the force of law.

QUESTION No. 3 —

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held June 11, 1963, received 232 votes in the affirmative and 18 in the negative, and in a joint session of the two branches held May 10, 1965, received 159 votes in the affirmative and 91 in the negative?

SUMMARY: The proposed amendment authorizes the Commonwealth and the cities and towns therein to provide for municipal industrial development in such manner as the General Court may determine.

QUESTION No. 4 —

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below which was approved by the General Court in a joint session of the two branches held July 16, 1963, received 208 votes in the affirmative and 43 in the negative, and in a joint session of the two branches held May 19, 1965, received 219 votes in the affirmative and 39 in the negative?

SUMMARY: The proposed amendment confers considerable authority upon cities and towns with respect to the conduct of municipal government, including the authority to adopt, repeal and amend city and town charters and, in accordance therewith, local ordinances and by-laws. The General Court retains general power to act in relation to cities and towns and classes thereof and, in some circumstances, to enact special laws regarding a particular municipality, including laws for its incorporation, dissolution or merger. Cities and towns are not empowered to act

with respect to the general elections, taxation, pledges of credit, dispositions of park land, general civil relationships, the punishment of felonies, or the imposition of imprisonment except as the General Court may lawfully confer such powers upon them.

QUESTION No. 5 —

LAW SUBMITTED UPON REFERENDUM AFTER PASSAGE

Do you approve of a law summarized below, which was approved in the House of Representatives by a vote of 118 in the affirmative and 102 in the negative and was approved in the Senate by a vote of 21 in the affirmative and 16 in the negative?

SUMMARY: The Act imposes a temporary tax upon all retail sales of tangible personal property at the rate of three per cent of the selling price. Sales of certain items are exempted from the tax, including but not limited to sales of food products for human use, articles of clothing, prescription medicines, agricultural machinery, and certain publications. The statute contains specific provisions relating to the registration of vendors, the filing of returns and the payment of the amounts collected by such vendors. Vendors may apply to the State Tax Commission for abatements of the amounts owed where they believe such amounts to be excessive, and decisions of the Commission on such applications may be reviewed by the Appellate Tax Board. The Commissioner of Corporations and Taxation shall have the usual powers and remedies provided for the collection of the taxes imposed by this section. The State Tax Commission shall issue regulations necessary for proper administration and enforcement of the section.

The Act further imposes a temporary excise upon the storage, use or other consumption in Massachusetts of tagible personal property at the rate of three per cent of the sales price of such property. Sales upon which the retail sales tax described above has been imposed, or which are exempt from the retail sales tax shall be exempt from the use tax. Sales upon which a tax has been paid in another jurisdiction shall also be exempt. Assessment, abatement and collection of the use tax shall be governed by the provisions which relate to the tax upon retail sales. The tax upon retail sales and the excise upon storage, use or other consumption shall be effective during the period from April 1, 1966, to December 31, 1967.

Each qualified taxpayer shall be entitled to a credit of four dollars for himself, four dollars for his spouse and eight dollars for each qualified dependent, but such credit shall not be allowed if the taxable income of such individual and his spouse exceeds five thousand dollars for the year. In addition to the taxes described above, the Act provides for new excises upon certain banks; new taxes upon the income of certain corporations; new taxes upon cigarettes; a room occupancy excise upon

rent paid for the use of hotel rooms and other lodging places; and excises upon sales of certain alcoholic beverages.

The Act creates the Local Aid Fund for the purpose of providing educational assistance, and authorizes the periodic distribution of amounts from such Fund to the cities and towns. In addition, The Act contains a variety of provisions relating to the program of State aid to public schools, and to its administration.

QUESTION No. 6 —

Do you approve of an act passed by the General Court in the year nineteen hundred and sixty-six, entitled "An Act imposing a temporary tax on retail sales and a temporary excise upon the storage, use or other consumption, of certain tangible personal property, revising and imposing certain other taxes and excises, establishing the Local Aid Fund, and providing for the distribution of funds therefrom to cities and towns

QUESTION No. 7 —

A. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whiskey, rum, gin, malt beverages, wines and all other alcoholic beverages) ?

B. Shall licenses be granted in this city (or town) for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages) ?

C. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages in packages, so called, not to be drunk on the premises?

D. Shall licenses be granted in this city (or town) for the sale of all alcoholic beverages by hotels having a dining room capacity of not less than ninety-nine persons and lodging capacity of not less than fifty rooms

QUESTION No. 8 —

B. Shall the pari-mutual system of betting on licensed dog races be permitted in this county?

The polls will be open from 10:00 A.M. to 8:00 P.M.

And you are directed to serve this warrant by posting an attested copy thereof in the usual places for posting warrants.

Hereof fail not and make due return of this warrant with your doings thereon to the Clerk of said Town at or before the time of said meeting. Given under our hands at Bellingham this 24th day of October A.D. 1966.

Re: Request for approval
of By-Laws

Commonwealth of Massachusetts

Dept. of the Attorney General

State House

Boston, Massachusetts

Gentlemen:

I hereby certify that the following by-laws and/or amendments to the Town By-Laws were unanimously adopted at the Annual Town Meeting held March 25, 1966:

Under Article 10 it was unanimously voted to amend Article III of the By-Laws by adding the following section:

1. "No person without a permit or license from the Board of Selectmen shall store, keep or allow to remain on his premises more than one unregistered motor vehicle, assembled or disassembled, unless the same is stored or kept in a garage or other building, except a person duly licensed under General Law Chapter 140, section 59, or those vehicles designated and used for farming or agriculture or construction purposes. Said Board shall not issue such a permit unless it finds that the presence of such vehicle or vehicles, as the case may be, on such parcel (1) will not nullify or substantially derogate from the intent and purpose of this by-law, (2) will not constitute a nuisance and (3) will not adversely affect the neighborhood in which parcel is located..

2. Each such permit shall (1) specify the maximum number of such vehicles that may be kept, stored or allowed to remain on such parcel, (2) be limited to a reasonable period of time and (3) be a personal privilege of the applicant and not a grant attached to and running with the land."

Under Article 27 it was unanimously voted to adopt the following as section 3, of Article IX of the Town By-Laws:

"That any board or officer in charge of a department of the Town may, under the provisions of Section 4, of Article III of the Town By-Laws, sell any personal property of the town with the possession or control of the department which has become obsolete or is not required

for further use by the department, or trade the same in part payment for replacements for which funds have been provided."

Under Article 31 it was unanimously voted to amend Article X, Police Regulations, of the By-Laws by adding the following section:

Section 1. No person shall, without the license of the Board of Health, throw into, or leave in, or upon any street, court, square, lane, road, public square, public enclosure, pond or body of water, or vacant lot within the limits of the Town, any dead animal, dirt, sawdust, soot, ashes, cinders, shavings, hair, shreds, manure, oyster, clam, or lobster shells, waste water, rubbish, or filth of any kind, or any refuse, animal or vegetable whatsoever."

Under Article 32 it was unanimously voted to amend Article X of the By-Laws by adding the following section,

Section 2. No person shall linger, continue to sit, stand or occupy any part of the public street, public place, public building, or any property not his own or under his control, so as to obstruct or impede the free passage of or in any manner annoy or disturb any other person, after being instructed or directed by a police officer to move on."

Under Article 33 it was unanimously voted to amend Article X of the By-Laws by adding the following section:

Section 3. No person shall fire or discharge any firearm or other explosive article within the limits of any park, playground, public way, public building, or other public property except with the consent of the Board of Selectmen. This by-law shall not apply to the lawful defense of life, property, or to any law enforcement officer acting in the discharge of his duties."

Under Article 34 it was unanimously voted to amend Article X of the By-Laws by adding the following section:

Section 4. No person shall collect, deal in, or keep a shop for the purchase, sale or barter of junk, old metals, or second hand articles within the limits of the Town, unless licensed by the Board of Selectmen.

Under Article 35 it was unanimously voted to amend Article X of the By-Laws by adding the following section:

Section 5. The Highway Superintendent may, for the purpose of removing or plowing snow, or removing ice, from any way, remove or cause to be removed to some convenient place including in such term a public garage, any vehicle interfering with such work, and impose liability for the cost of such removal, and of the storage charges, if any, resulting therefrom, upon the owner of such vehicle.

Under Article 36, it was unanimously voted to amend Article X of the By-Laws by adding the following section:

Section 6. Whoever violates the provisions of any section of this Article except sections 4 and 5 shall be punished by a fine not exceeding twenty dollars for each offense.

Under Article 28 it was unanimously voted to amend Article V of the By-Laws by adding the following section:

Section 5. Public Administration Research Collection at the Public Library. There is hereby established, and there shall thereafter be maintained a public administration research collection at the Town's Public Library, the same to be under the supervision of the Library Trustees, for the use of the town officers and committees, civic organizations and individual citizens of the Town engaged in research in matters pertaining to governmental and social problems, particularly as they relate to the Town of Bellingham. To the extent that the library department's facilities permit, it shall assist the members of the town meeting and any committee thereof in all matters requiring statistical research or fact-finding in connection with studies ordered by the town meeting.

The chairman of each temporary study committee established by the town meeting shall upon termination of the existence and the work of his committee, deposit with the Library Trustees the working papers and other material gathered or compiled by the committee in the course of its work. Subject to the approval of the Town Clerk and the requirements of Chapter 66 of the General Laws, the Library Trustees may destroy so much of said working papers and material as has no substantial value; and the balance shall be deposited in the public administration collection.

The Town Clerk shall furnish the Town Library Trustees with at least two copies of every publication issued by the Town and distributed through said Town Clerk's office; and any town Department, board, commission or committee publishing a report not so distributed shall file at least two copies thereof with the Town Library Trustees.

Under Article 29 it was unanimously voted to amend Article V of the By-Laws by adding the following section:

Section 6. Except as the laws of the Commonwealth may otherwise require, the chairman of each building committee, or his designated representative, shall upon the termination of the existence and work of his committee: (1) provide the town department which is to operate and maintain the building with a complete, corrected final set of plans of the finished structure, and shall relinquish to said department all pa-

pers guaranteeing the structure of any feature thereof material used therein, or work done thereon, and (2) relinquish the remaining papers of said committee to the Town Library Trustees for the purpose specified in section 5 of this Article, including therewith an inventory indicating what papers, materials and records were deposited with the Town department specified. Subject to the approval of the Town Clerk and the requirements of Chapter 66 of the General Laws, the town library Trustees may destroy so much of the material relinquished to the library as has no substantial value; and the balance of such material shall be deposited in the public administration collection.

Under Article 37 it was unanimously voted to amend the Town By-Laws by adding the following article and sections:

ARTICLE XI PUBLIC CARRIAGES

Section 1. The Board of Selectmen may license hackney carriages or motor vehicles for the conveyance of persons for hire from place to place within the Town, and they may revoke such licenses at their discretion, and a record of all licenses so granted or revoked shall be kept by the Selectmen.

Section 2. No person shall set up, use or drive in the Town any unlicensed hackney carriage or motor vehicle for the conveyance of passengers for hire from place to place within the Town under a penalty not exceeding twenty dollars for each offense.

Section 3. Licenses shall expire on the thirtieth day of April next after the date thereof, and shall not be transferred without the consent of the Board of Selectmen thereon. For each license the sum of two dollars shall be paid to the Town Treasurer for the use of the Town. A license so granted shall become void if the applicant neglects or refuses to take out and pay for his license within ten days after notice that it has been granted.

Section 4. The Selectmen may grant to the holder of a license under the preceeding sections of this Article a license to use a certain portion of a public way as a carriage stand for the solicitation of passengers for hire and no person shall use any portion of any public way for such purpose without such license. Any person who violates any of the provisions of any section of this article shall be punished by a fine of not more than twenty dollars for each offense.

Under Article 38 it was unanimously voted to amend the Town By-Laws by adding the following Article and Sections:

ARTICLE XII CAPITAL IMPROVEMENTS COMMITTEE

Section 1. A committee to be known as the CAPITAL IMPROVEMENTS COMMITTEE shall be established, composed of one member of the Town Finance Committee appointed by and from it, one member of the Town Planning Board appointed by and from it, one member from the Town School Committee appointed by and from it, one member from the Board of Selectmen appointed by and from it, one member from the Board of Water Commissioners appointed by and from it, the Town Treasurer, the Town Accountant, and two additional members to be appointed by the Moderator. One Moderator's appointment shall be for one year. The other Moderator's appointment and future replacements by the Moderator shall be for two year terms, except when filling vacancies. Any vacancy shall be filled by the original appointing authority for the balance of the year in which the vacancy occurs. No person who is an elected officer of the Town or a member of any board or commission of the town, or an appointive employee of the Town shall be appointed by the Moderator. No elected or appointed town officer, other than those specifically designated, shall serve on said committee. All appointments are to be made each year immediately following the final adjournment of each Annual Town Meeting.

Section 2. The Capital Improvements Committee shall choose from its members a chairman and secretary, shall regulate its proceedings and shall serve without pay.

Section 3. The Committee may employ clerical or other assistance, to be paid from such funds as the Town may appropriate for the use of said Committee.

Section 4. Capital Improvement is to be defined as a "Physical betterment or item of equipment having a cost of \$5,000.00 or more or the purchase of land."

Section 5. The Capital Improvements Committee shall study and schedule capital improvements covering a period of at least six years, based on a system of fiscal guidelines and priorities. The Committee shall make recommendations on all Capital Improvements brought before any Town Meeting, indicating approval or not, and proposed method of financing.

Section 6. The Selectmen and all boards, committees, heads of departments or other officers of the Town authorized by law to expend money shall furnish to the Capital Improvements Committee before November 1, detailed estimates of the amounts necessary for Capital Improvements for the departments under their jurisdiction for the following six years. A capital improvement item may not be voted at any regular or special town meeting until it has been presented in written form to the Capital Improvements Committee.

Section 7. The Committee shall annually prepare a Capital Improvements Program to include at least the anticipated six year schedule of capital improvements and recommendations for action for the following year. The committee shall reproduce such report by February first each year and shall submit it to the Finance Committee, and deposit the original with the Town Clerk. Copies shall be available on request.

I further certify as follows:

- a) That the required quorum was present at the above Meeting.
- b) That the warrant for said meeting was duly posted on the 20th day of January, 1966 in accordance with Town By-Laws by Constable George O. Hurteau.
- c) That the return on said warrant was duly made by George O. Hurteau, Constable of Bellingham.
- d) That adjournment notices were duly posted and published in accordance with Town By-Laws.
- e) That the vote on all of the above (as indicated) was a unanimous vote.

(Above action was recommended by the Finance Committee)

ANNUAL REPORT OF BOARD OF WATER COMMISSIONERS

We are happy to report that the year 1966 has been one of great progress in accomplishing the many needs to bring the Water Dept. up to modern standards to meet the requirements of our ever expanding growth.

During 1966, a program of testing, painting and repairing of hydrants was initiated. This project was assigned to Dep. Fire Chief Vincent Thayer, who we feel did an excellent job for us. Many hydrants were found to be defective, some were found inoperable. We are happy to report that all hydrants have been repaired, painted with fluorescent tops to aid firemen in locating them at night, weed killer sprayed around them, and thoroughly checked for your protection.

The Center Standpipe has been cleaned, sandblasted and painted, the area surrounding the tank has been cleared, leveled and seeded to help beautify the area. Many hours have been spent clearing overgrown brush from all wells and pumping stations. The area at the Wrentham Street Office has been cleared so that it can be seen from the street, the building has had outdoor lighting installed for the purpose of preventing vandalism, which has been frequent. We feel that our building and tanks are becoming the best looking and best maintained in the area.

Metering of the Town's system has been started and will continue through 1967, we ask the citizens to cooperate with the installers to help expedite this program, as this is the only fair way for the Town to sell its water. Remember, through metering you will not be paying for water that some other person is wasting. On the flat rate basis you are paying, through your taxes for all water that is wasted.

The Town's fifth well, located off Nason St. is under construction and should be ready for use this summer. There has been a continuing search for new water sources, throughout this past year. A new well field has been located in North Bellingham that has a possible yield of a million gallons per day. We earnestly solicit your support in helping us to develop this field, for new sources of water must be obtained while they are still available. The cost of land and construction is rising every year, and to postpone this project is to surely increase its cost. We are sure that if we can supply sufficient water we may begin to attract some industry to Bellingham, which we feel is the only way to help alleviate the evergrowing tax burden which we are being faced with.

We wish to publicly commend our Superintendent, and employees

for their splendid help and cooperation, also the firm of Hayden, Harding, & Buchanan, Inc., for their efforts in helping us solve our water problems. We also wish to thank the citizens of Bellingham for the privilege of serving you.

CONSERVATION COMMISSION ANNUAL REPORT 1966

To the Honorable Board of Selectmen and to the Citizens and Taxpayers of Bellingham:

The Conservation Commission was reactivated this year by the appointment of six new members for varying terms by the Board of Selectmen this year. The organizational meeting was held on October 20, 1966 and officers were elected. Russell Lovering, Chairman; Francis Pretto, Vice Chairman; Phillippe Baril, Recording Secretary. Other members of the Commission are Joseph Mason, George Holmes, Reuben Patton, and Theodore Arcand.

The members of the Commission voted unanimously to meet weekly for the balance of the year because of the magnitude and importance of conservation to the community.

During the short span of three months, members of the Commission have attended a meeting dealing with pollution of the Charles River; met with other Town Boards, and participated in investigating several reported water contamination problems, one of which is still under investigation, namely Box Pond. Several properties have been visited and are being reviewed as very near future projects for the Commission. An appeal was also issued in local papers for civic-minded citizens who had land they wished to give to the Commission to contact same. Advantages: Relieve tax burden from owner and maintain certain "Green Belts" in town for beauty.

We expect the coming year to be a very busy and productive one. Plans are being formulated that should preserve our Natural Resources, the beauty of our countryside and enrich the lives of all.

We wish at this time to thank the members of the Board of Selectmen and all other Boards and Departments for their cooperation and assistance during this year.

Respectfully submitted,

Russell Lovering, Chairman

REPORT OF THE TREE WARDEN

To the Honorable Board of Selectman:

In the year 1966 (78) seventy-eight different types of trees had to be cut down and removed. They are as follows; 35 oak; 33 elm; 2 pine; 4 birch and 4 white ash.

Trimming was done on the following town streets. Center, Cross, Maple, Irving, Elbow, Hartford, Grove, Depot, No. Main Street, and Silver Lake Road.

There are an indefinite number of trees to be removed and also trimming to be done in the following year to come.

I wish to thank the Board of Selectman and all those concerned for their cooperation.

Respectfully submitted,

The Town has purchased a new Ambulance-Rescue combination Vehicle which is now overdue, and we hope to have delivery before the Annual Town Meeting. This vehicle is to replace the twelve year old Rescue Truck and should increase the efficiency of the department.

The new 750-gallon pumper has been put into operation this year and has definitely improved and increased the efficiency of the Fire Department

The new Police-Fire Station has given the Fire Department more floor space and equipment so that we are now in a position to start a Fire Alarm System that should eventually cover all sections of the Town.

I wish to express my heartfelt thanks to all the officers and men of the three stations, and the officers and men of the Ambulance-Rescue Division for their splendid cooperation.

These devoted men are on call for any emergency twenty-four hours a day, whether it be for a fire or for ambulance service. These underpaid servants devote much of their free time to practice and drill sessions without pay in order that they may be best prepared for any emergency that might arise.

The Highway and Water Departments have been most cooperative in keeping the Fire Department posted of all highways and hydrants under repairs.

To the Honorable Board of Selectmen, I wish to express my sincere thanks for their cooperation, understanding and assistance that has been given to the three divisions that come under the jurisdiction of the Fire Department.

Respectfully submitted,

Peter Kornicki

REPORT OF THE BELLINGHAM CIVILIAN DEFENSE

To the Honorable Selectmen;

I hereby submit the annual report of the Civil Defense.

We started the year by demonstrating to the Selectmen and heads of Town Departments, the functions of a Control Center. In the event of natural or war distaster, the Civil Defense Control Center would be the immediate meeting place for all Heads of Departments where decisions can be made and expedited quickly and efficiently.

The Control Center is now equipped with a powerful generator to operate radios, lights, and all emergency equipment.

One demonstration proved how quickly a message can be received and dispatched with the Control Center Base Radios, and Mobile Units. Throughout the year our able radio officer, Richard King, has manned the radio equipment, taking radio messages from Sector Headquarters. In one demonstration, he took part in an actual nuclear blast and plotted its movements so as to determine how much time the Town of Bellingham would have before fallout would start falling here.

I cannot overemphasize the need for a permanent Control Center in the Town of Bellingham. Not only will we be back on matching funds, but in case of a disaster, we will have the facilities at hand to cope quickly and efficiently with the arising problem. For these reasons I urge all the town's people to back up my plans for a Control Center when they are submitted for approval.

We have completed first aid and family survival courses under the direction of William Cummings.

I would like to take this opportunity to thank all the Selectmen and Heads of all other Departments for accepting our invitation to the temporary Control Center demonstration. I would also like to praise the Auxiliary Police for their fine performance and hard work throughout the year. Mrs. Ernest Lamarre is also deserving thanks for her work in first aid.

Respectfully Submitted,

Victor J. Denault,

REPORT OF THE INDUSTRIAL DEVELOPMENT COMMISSION

To the Honorable Board of Selectmen

Gentlemen:

In 1966 the Bellingham Industrial Deveypment Commission contacted a number of companies in our continuing efforts to attract new industry to Bellingham. We were instrumental in locating Benzenoid Organics, Inc. in the former Armour Leather plant.

A quarter page ad has been contracted for the special Annual New York Times Economic Review. The Commission extends its thanks to those firms and individuals that have financially sponsored the ad: The Bellingham Industrial Park, Norfolk County Trust Co., Bellingham 495 Industrial Park, John J. Casey Insurance Agency, Inc., Garelick Bros. Farms, Inc., Richard C. Hill, Bellingham Lumber Co., Almacs Supermarkets, Benzenoid Organics, Inc., Cumberland Construction Co., Hart Real Estate, Marchand Machine Work, Inc., Textile Machine Shop, Inc., and Trottier's Express, Inc. Copies of the ad are available upon request for interested parfies.

Work on a new and comprehensive brochure that will help present Bellingham's business potential is in progress. The art work for the cover has been accepted and sent to the printers. We are now preparing the text with completion expected on or about March 1, 1967.

Members of the Commission have met with members of other town boards and have attended EDA meetings regarding the urban area planning requirements and the open space land grant program. The Overall Economic Development Plan of Bellingham was updated and submitted to the State Department of Commerce. This plan and report is a prerequisite for qualification for EDA funds.

We feel that progress has been made during 1966 in our continuing effort to attract industry and thereby create a broader tax base for the citizens of Bellingham.

REPORT OF THE ZONING BOARD OF APPEALS

To the Honorable Board of Selectmen and to the Citizens and Taxpayers of Bellingham:

The Zoning Board of Appeals was organized for the year on April 7, 1966. Michele Parisi was renamed chairman for another year and Matthew Pytko was named clerk. Carl Rosenlund was welcomed as a new member. Joseph Chiappone, alternate, was the fourth member of the Board.

The Board had a comparatively smaller number of public hearings during 1966 compared to the previous year. During the year, 13 public hearings were held for various petitions for variances. Ten of these were approved, two were withdrawn by the applicants and one was denied.

However, the Board spent many hours during the year in a study of the zoning laws in preparation for its meetings with the Planning Board on the proposed changes to the present zoning law which will be presented to the annual Town Meeting this coming March. The Board of Appeals made many recommendations to the Planning Board which it felt would clarify and eliminate the ambiguities in the present law. Many of these recommendations have been incorporated in the new law by the Planning Board.

The members of the Zoning Board of Appeals feel that the proposed new Zoning By-Law is an excellent one; that it has corrected many deficiencies in the old law that should benefit the Town of Bellingham in many respects. We respectfully urge the townspeople to approve these articles at the Town Meeting.

In conclusion, we wish to thank the members of the Board of Selectmen, Town Counsel Lee Ambler, and the many other interested citizens for their interest and cooperation during the year of 1966.

Respectfully submitted,

MICHELE PARISI, Chairman

REPORT OF SUPERINTENDENT OF THE STREETS & HIGHWAYS

To The Honorable Board of Selectmen and to the Citizens of Bellingham:

CHAPTER - 81

All necessary repairs, such as cleaning catch basins, drain pipes, culverts, water ways, patching, scraping & graveling was done under chapter - 81. A gravel penetration of MC1 was applied to the following streets; Grove, Mellon, High, Auger, Link, Blackstone St. and Box Pond Rd. Maintenance was carried out on all chapter - 81 Roads, Total mileage for 1966 was 62.93 Miles. All work was done as per agreement between the Board of Selectmen & the County & State Engineers.

CHAPTER - 90 MAINTENANCE

As per agreement with the Board of Selectmen and the State and County Engineers the entire square known as Crook's Corner was repaved with Type I in place. In 1967 we hope to continue up 126 towards Bellingham Center with this type of paving.

CHAPTER - 90 CONSTRUCTION

Reconstruction and Drainage. Type I in Place and Berm has been completed on 1000 Ft. of Center Street. Reconstruction and Drainage, Type I in place and Berm has been completed on 1200 Ft. of Blackstone Street. In 1967 another section of Blackstone Street will be started as soon as Blackstone Street is completed we hope to start the reconstruction of route 126 from the Center heading North along North Main Street as this is a very dangerous section of roadway.

HIGHWAY SWEEPING & SAND CLEANING

Sand was removed from many of the main Streets in town but as in the past not enough money was available to do all that was necessary. The Highway Dept. has asked for a Mechanical Sweeper this year in an effort to have a clean and attractive town.

BRIDGES & RAILINGS

Railings were repaired and replaced on North Main Street, South Main Street, and High Street over the past year. This Dept. ask for and received an emergency transfer of \$1680.00, to repair an existing culvert on Muron Avenue that was badly rusted and partialy caved in. All necessary repairs were completed.

SIGNS & GUIDEPOSTS

A complete program of replacing all street signs in town with new

signs made by this dept. with its new sign making machine has been started. Most of the street signs have been made but not all signs have been erected, due to the fact that numerous new posts are needed. New speed limit signs have been made for the streets that have been approved by the State Dept. of Public Safety, and will be erected as soon as ground conditions permit.

SIDEWALK MAINTENANCE

Sidewalks were repaired on Pulaski Blvd., North Main St., Maple St. and South Main St.

STONE STREET IMPROVEMENT

A new type mix in place was put on 650 Ft. of Stone Street this mix using a new type water emulsion asphalt proved very successful.

INDIAN RUN ROAD SURFACING

Indian Run Rd. was surfaced with a Gravel Penetration of MC1 asphalt for a distance of 950 Ft.

FLORIDA AVENUE DRAINAGE

Four catch basins and 261 Ft. of 12" concrete pipe have been installed on Florida Ave. as per Vote of a Special Town meeting June 1st 1966.

CHESTNUT STREET DRAINAGE

Eight catch basins and 819 Ft. of 12" pipe have been installed on Chestnut St., as per vote of a special Town meeting of June 1st 1966. This project is not complete as per agreement with the finance committee half of the money was appropriated with the remainder to be voted on at a later date.

LOWLAND STREET DRAINAGE

Three catch basins and 200 Ft. of 12" concrete pipe have been installed on Lowland St. an additional 200 Ft. of 18" concrete pipe has yet to be installed as work had to be stopped in December due to inclement weather, work will be resumed as soon as weather permits.

SIGNAL LIGHTS

Signal lights have been installed at the North Main Street Railroad Bridge in an effort to cut down the number of automobile accidents on this dangerous, obsolete bridge.

SNOW REMOVAL & SANDING

The Highway Dept. handled 8 Plowing storms with a snow accumulation of 51". Sanders were called out 21 times during the year 1966. This Dept. is asking for three plows to equip town owned trucks. Next year an effort should be made to secure one more automatic sander to enable this department to handle the ever increasing miles of Town roads. The shoveling out of the Towns Fire Hydrants after each storm was placed under the Highway Dept. in 1966, and the work was done with the cooperation of the Firemen of this Town.

Late this year the Highway Dept. put into service the catch basin cleaner which will enable us to eliminate some of the drainage problems in the town.

I again recommend and have asked for a Mechanical Sweeper, Three Snowplows, and a Sidewalk Paver for 1967. The sidewalk paver will enable this dept. to complete the construction and paving of all the sidewalks voted during the year 1966. I also recommend that a committee be formed as soon as possible to investigate the possibility of either an addition to the present Town Barn or the construction of a new Town Barn elsewhere in Town.

I wish to thank the Board of Selectmen, The Police Dept., The Fire Dept., The Water Dept., The Civilian Defense and The State and County Engineers for the splendid cooperation received this year. I would also like to thank the Employees of the Highway Dept. for their cooperation and devotion to duty.

Respectfully Submitted,

Gerard L. Daigle

Superintendent of Highways

REPORT OF THE HEALTH AGENT

To the Honorable Board of Selectmen and to the citizens and Taxpayers of Bellingham

The annual report of the Health Agent is submitted.

From January 1966 thru December 1966, 117 health permits were issued by me for the installation of and repairs to sewerage disposal systems. 3 permits were also issued for the removal of Offal from the Town of Bellingham. Offal removal permits are \$5.00

The fee for a health permit is \$5.00. The fee for a repair permit is \$2.00. Applications must be filled out accompanied by a diagram showing locations of the new installation or repair. In addition, percolation

tests must be taken and submitted with the application before a health permit can be issued. All installations are inspected upon completion and all existing laws rigidly enforced.

In compliance with the new State Law all installers of sewerage disposal systems in the Town of Bellingham must have an installer permit. The fee is \$5.00.

POLIO CLINICS

In 1966, two free Polio clinics were held for pre-school children. The clinics were well attended. Oral Sabin vaccine was used in both clinics. It was made available by the Massachusetts Department of Public Health.

MEASLES CLINIC

In 1966, a Measles Clinic was held for pre-school children. It was also well attended and it marked the first time such a clinic was held in Bellingham.

With the growing of our Town the duties of the Health Agent have been expanded and include many areas such as water testing of swimming areas and the testing of various drainage problems that occur from time to time throughout the town. In addition, the investigating of claims of needy parents in regards to pre-mature babies and the enforcing of the many local and state laws along with the numerous reports that must be made out requires a great deal of time and effort and the combined cooperation of all officials in Bellingham.

I would like to take this opportunity to thank all volunteers. Civil Defense workers and clerical workers headed by Mrs. Gloria Spayd, Miss Lucy King, R.N., Mrs. Ann E. Fenn, R.N. and all the Public Health Nurses for their splendid cooperation in the various clinics.

Respectfully submitted,

Emile W. Niedzwiadek

REPORT OF THE BELLINGHAM PLANNING BOARD

To the Honorable Board of Selectmen and Citizens of Bellingham:

The PLANNING BOARD hereby submits its annual report of the year 1966.

The Planning Board held regular meetings each week, the 1st and 3rd meetings were for planning and the 2nd and 4th were set aside for subdivision control business. During the course of the year the board has held 46 regular meetings, two specials, 10 public hearings and three joint meetings, a total of 61 official meetings. The board conducts their meetings each Thursday at the Town Hall at 8:00 p.m.

There has been a general decrease of subdivision plans submitted in the last few months, however, five subdivisions were presented to the board and approved this year, for a total of 97 house lots.

Very little work has been done in the past on Town Planning by the board due to the heavy work load that subdivision plans required. This year we have devoted a great amount of time into areas of planning that needed immediate attention. i.e. Our subdivision control law rules and regulations were revised and upgraded to meet the needs of our growing town. A base street map was prepared for the town, copies of which were sent to our town departments with smaller prints available to the public upon their request.

The latter part of the year spent was upgrading and revising the zoning by-law and zoning map in which to meet the needs of the continuous rapid growth of the community. These changes will be presented by the board to the townspeople at our annual town meeting in March.

The board is also sponsoring an article on the town warrant for the acceptance of streets. We feel that as the town is providing service to these streets we should take the necessary steps to qualify for state reimbursements for their maintenance.

The goals for the board in the coming year will be to devote time in planning for the town in the areas of open space, flood plain control, zoning, and recreation. The State and Federal Government are taking stronger steps in the area of multi-town planning and are insisting that contiguous towns become a part of regional planning councils. In order to gain any State or Federal Aid the town must be a member of this regional planning district. Further study in this area will be conducted by the board.

In conjunction with the above future planning of our town and the progress already accomplished we have engaged the services of Philip B. Herr of Herr Associates as Planning Consultant.

REPORT OF BOARD OF PUBLIC WELFARE

The Board of Public Welfare respectfully presents its report for 1966. Following is a brief resume of categories of Public Assistance:

OLD AGE ASSISTANCE—

As has been anticipated, this category is following the National trend and the numbers and cost continue to decrease. Main reason is the increase in the number of people eligible for Social Security and the increase in the amount of benefits. The cost of this program decreased \$9,000.00 in 1966 compared to 1965.

AID TO FAMILIES WITH DEPENDENT CHILDREN:

As has been stated in previous years's reports, this is the category in which it can be expected that there will be a rapid increase in case numbers and costs. In 1966 the cost rose \$8,300.00 compared to 1965. The main factor still remains that this is caused by the rapid increase in the Town's population, particularly in the lower age group of younger married couples. Also the effect of the lowering of the eligibility factors by insistence of the Federal Government, and the increased allowances for employed members of the A. F. D. C. family will be a definite factor in the increased cost of this category.

DISABILITY ASSISTANCE—

This category showed an increase in costs of \$2,000.00 compared to 1965. Here again the reason can be attributed to the more liberal thinking of what is a disabled person and the continuing granting of benefits while the case is being processed for rehabilitation.

MEDICAL AID FOR THE AGED—

This category which was initiated in 1960, strictly for people over 65 who were classified a medically indigent, was eliminated in September of 1966 and a substitute category named "Medical Aid", was started. Medical Aid now pays for the medical needs of all the people on Public Assistance with the exception of General Relief. This category will therefore show in the future the largest amount expended for the needy, as the expenses under O. A. A., A. F. D. C. and D. A. will only reflect the cost of the grants for maintenance.

GENERAL RELIEF—

A category of temporary assistance in which over the past few years, the total cost has remained approximately the same and will continue to do so. This again is caused by the high percentage of young couples in the Town with a high cost of living, and no financial backing when they are suddenly placed in a position of need due to sickness unemployment, or any other cause.

The following is a break-down of the cost by categories for the year 1966:

In respect to the present office staff, it consists of William E. Quirk, Director; Joseph P. Martini, Jr., Social Worker, and Jeannette M. Fleury, Junior Clerk-Typist; all with permanent Civil Service status. Under Federal regulations, another Social Worker will have to be added by July 1, 1967. This is due to requirements of the number of cases that one worker can be assigned. This will more than likely entail the adding of another clerk.

The Board and Staff wish to thank all the other Town Departments and local Civic and Fraternal Organizations for their co-operation.

REPORT OF LIBRARY TRUSTEES

For quite a while, the Bellingham Public Libraries have not had an accurate record of how many people were using the libraries. In May, 1966 a re-registration project was started. Each person using the libraries was issued a new card that can be used in any of the three libraries.

The Trustees hired Mrs. June Hill to work at the North Branch, located in the North School. The hours are:

Thursday 12 - 4:00 p.m. — Friday 12 - 4:00, 7:00 - 8:00 p.m.

Mrs. Mowry's hours at the South Branch, located in the Keough School are:

Monday	12 - 3 p.m.	Wednesday	12 - 4 p.m.
Friday	12 - 4, 7 - 8 p.m.	Saturday	1 - 4 p.m.

The Trustees also employed Mrs. Janice Leone as Children's Librarian at the Center Library. After a vigorous project of weeding out the book collection, the children's books were moved downstairs and the children now have their own room. The hours at the Center Library, on the main floor which includes the adult and young adult sections are:

Monday - Friday	7 - 9 p.m.	Thursday	12 - 4 p.m.
— Friday	12 - 4, p.m.	Saturday	1 - 4 p.m.

The children's hours are:

Thursday	12 - 4 p.m.	Friday	12 - 4, 7 - 8 p.m.
Saturday			1 - 4 p.m.

This past year telephone service has been added to the North and South libraries. New curtains were purchased for the Main Library in the Center. The woodwork and ceiling were painted. The floor was refinished, and the back yard was cleared and levelled. Story hours were held during the summer at the three libraries. Now that the Eastern Regional Library System is underway, books that are not available at the libraries here, may be obtained by our librarian at the

main library through Inter-Library Loan in Wellesley and Boston. The Trustees' major project now, as in the future, is to enlarge the library. Through a \$300 Federal grant, a number of reference books were purchased for the main library. We want to stress that the librarians are at the service of the public, and are willing to answer your questions and to help you find what you want.

Again this year a 1966 State Aid Grant for public libraries was applied for by the Board of Trustees. The Town of Bellingham was granted the \$1,693.50 with reservations which basically consist of our head librarian, Mrs. Martha Patton, obtaining her Master's Degree in library science within five years in order that the town may continue to receive the State Aid. Mrs. Patton is now enrolled at Northeastern University, working towards this end.

We would like to remind all parents that they are responsible for their own and their children's overdue and lost books. Children below the second grade will not be allowed to borrow books, although parents may borrow books for them. All library patrons are allowed to borrow up to three books per library card. Books can be borrowed for a two week period and may be renewed either in person or by telephone for another period of two weeks.

Many books were donated to the libraries this year and we'd like to extend our thanks to the contributors. Also to our staff of librarians, the assistants who helped them at various times during the year, our janitor, and everyone else who helped us this year, we extend our thanks and appreciation. We welcome any and all suggestions for the improvement of the library service to you. Our special appreciation to Mrs. Patton, our head librarian, for her cooperation in preparing this report.

**REPORT OF THE BOARD OF SELECTMEN
AND THE BOARD OF HEALTH**

The pattern of population growth which has become common in Bellingham during recent years appeared to continue during 1966. This has caused an increase in the demands upon the various departments of the town. Virtually every town agency has been effected by our increased population. We expect that this trend will continue in spite of the residential construction slowdown which occurred in 1966.

One area which has felt the increase in population very sharply is the Police Department. In order to meet the needs of the townspeople the staff was increased during 1966 with the addition of four men. At the year's end the department has a full time roster of Chief, three sergeants and eight patrolmen. The board supports a proposal to add another sergeant and three patrolmen during 1967. There is now a man in constant attendance at the police department office. The board proposes the purchase of a third cruiser to meet the increased demand for patrol, investigation, court appearances and general police work.

A police communications console and tower have been ordered and delivery will be made early in 1967. This along with telephone circuits serving just about all areas will give the department rapid communications throughout town.

The principal concern of the Selectmen sitting as the Board of Health continued to be sewage problems. The town will undoubtedly be faced with major sewage disposal conditions in the future. It is gratify-

ing to know that a Capital Improvements Committee has been created and will most probably consider this item along with many others in the years to come.

A new pumper, Engine 7, was added to the Fire Department at Station 2. This unit appears to be of excellent construction and capabilities. Engine 2 was transferred to Station 3 and our 1936 Forest Fire truck was decommissioned because of its age and condition. A new rescue vehicle is on order with delivery scheduled for early 1967. The Board established new ambulance use fees in February.

The Highway Department continued Chapter 90 construction work on Center and Blackstone Streets. During the year flashing caution lights were installed at the approaches to the railroad bridge on North Main Street. Speed limits were established on certain streets following approval of the State Department of Public Works. Additional zones will be added when construction of Interstate Route 495 is completed in town. It is expected that Route 495 will be most beneficial to the town and its citizens.

The Highway Department has made excellent progress in erecting new easily read street signs throughout town.

The School Committee has ceased to use the Center School and has recommended its transfer to our control for other municipal purposes. We concur with the School Board and an article appears in the 1967 Warrant to this end.

We are pleased to report that the Conservation Commission has been re-activated. Its members are working in earnest to give attention to the many phases of conservation.

The Housing Authority has also been active during the year and plans for the erection of housing units for the elderly are progressing very well.

The Board voted to expand the benefits afforded to town employees under our hospitalization plan as of January 1, 1967. It was noted that we were the only town in the county not covered for the maximum allowable by statute.

The Telephone Study Committee, which was appointed by the Board in 1965, saw its efforts rewarded during the year when the New England Telephone Co. announced plans to establish a single exchange to serve all of its customers in Bellingham. It is expected the new exchange will be in service late in 1967. This will greatly improve telephone service in town and will result in a savings to both the town and its citizens. Members of the committee were the late Staley E. Chase, Norbert J. Martel and Robert O. Bliss. The Board expresses its thanks to these gentlemen for a job well done.

There appears to be a trend toward regionalization of municipalities in coping with some of the problems besetting most communities.

The town is now represented in the South Middlesex Opportunity Council and the Southeastern Massachusetts Economic Planning Development Corporation. Both of these agencies are co-ordination services for federal programs which seek to improve social and economic conditions for this area. It is expected that other similar organizations will be created and that the town will hold membership.

Plans are being made by a committee appointed by the Moderator to hold appropriate ceremonies during 1969 in celebration of the town's 250th anniversary of incorporation.

The Board wishes to sincerely thank the many town officials and citizens who assisted in so many ways during the year.

Meetings of the Board are held weekly at 8:00 P.M. on Monday. All townspeople are cordially invited and encouraged to attend these meetings.

Respectfully submitted,

Joseph R. Scolovino, Chairman

The borrowing of \$18,000.00 authorized for the purchase of a 750 gallon pumper was transacted under State House notes at an interest rate to the town of 4.25%.

No action has been taken to borrow \$66,000.00 authorized for the purchase of water meters because this money is not needed to date. The money will be borrowed in early 1967 under State House notes.

I wish to express my appreciation for the cooperation I received from all those individuals whose assistance was required during my first year as Town Treasurer.

AGE OF ADMISSION TO SCHOOL

Any child who becomes six years of age on or before January 1st of the year following the term when he wishes to enter school may be admitted into the first grade. In every case the admission of a child under six shall be dependent upon availability of space and the fitness of the child to profit by the work of the school, such fitness to be determined by the superintendent. Pupils under seven years of age who have not previously attended school shall not be permitted to enter later than thirty days after the opening of school in September.

NO SCHOOL SIGNAL

The no-school signal will be broadcast at approximately 7:00 7:15 and 7:30 over WWON in Woonsocket, also before, during or immediately after news broadcasts over WBZ, WMRC, and WNRI.

In the event that schools do not close on any particularly bad day (rain, snow, cold, or other severe weather) parents are requested to use their own judgment in regard to sending their children to school.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Bellingham School Committee:

I respectfully submit my ninth annual report as Superintendent of Schools.

In many ways this has been a very significant year. We have experienced the opening of our Macy Elementary School, an unparalleled enrollment, and most of all, further development in horizontal and vertical education.

On September 7th, we opened Macy School to 593 pupils from grades one through four. The capacity of this school is 600 pupils. This school aptly named in honor of our Clara Macy is, both an edifice of beauty and an extremely functional building from an educational point of view.

Our enrollment as of Oct. 1, was 2,411 pupils, grades one through twelve. This is an increase of 323 over our enrollment of a year ago. We are sure that this kind of growth brings with it tremendous ramifications. It means more buildings, equipment, supplies and increase in staff.

Our past five year enrollment, together with our next five year projected enrollment follows:

Year	Grs. 1-6	Grs. 7-8	Grs. 9-12	Sped	Total	Increase
1961	667	218	304	1189	124
1962	746	202	392	1340	151
1963	872	230	438	1540	200
1964	1008	288	547	16	1859	319
1965	1143	318	609	18	2088	229
1966	1357	349	689	16	2411	323
1967	1537	398	770	30	2735	324
1968	1716	438	862	30	3046	311
1969	1895	501	981	30	3407	361
1970	2141	629	1072	30	3872	465
1971	2379	729	1227	30	4365	493

Your attention is directed to the fact that 107 seniors were graduated in June and in September we enrolled 236 freshmen and 293 first graders.

It may be desirable at this point to indicate the results of our October, 1966 school census.

North district—420 children ages 1 - 21.

Center district—2258 children ages 1 - 21.

South district—2244 children ages 1 - 21.

Total number of children ages 1 to 21 is 4922.

It would appear from the projection that Macy School was not premature and what is more, additional school facilities will be required in the immediate future. The most practical approach from an educational as well as economic point of view, would be to direct our concern immediately to a secondary facility. Our seventh grade was withdrawn from the high school building because of lack of space. We have been working with the School Needs Committee for several months. Once again we plead for a permanent school site committee to determine long range site requirements to meet our school needs.

Our curriculum, as with any program, must be vital, fruitful and constantly under evaluation and when necessary, revised. Our goals with respect to this concept are to provide even better and more adequate instruction for our students develop further a liaison between elementary and secondary units, and ready our high school for New England Association of Colleges and Secondary Schools accreditation.

Our most significant progress with respect to evaluation by the N. E. A. C. S. S. is the completion of self-evaluation reports on the part of teachers and the partial completion of evaluation of 31 different departments programs, and activities of our high school. Curriculum guides are being prepared for each subject matter area and for each grade level.

As you know, we have adopted the "new" mathematics program in grades one through eight and indications are that it is functioning very well.

Committees at the elementary level are also working in the evaluation of existing teacher guides as well as the development of new teacher guides.

We have added to our subject matter areas, English literature courses as such, at the seventh and eighth grade levels. Additionally, Shop II, Home Economics and Glee Club are now being offered to junior high pupils.

As you know, our industrial arts program is but an introduction to certain skills and is not intended to make tradesmen of our students. It does not duplicate the training of a vocational education program and is not to be identified as a vocational education program. At the Blackstone Valley Vocational High School we have enrolled 13 students. In this program the student is fully trained in a specific manual skill.

Fifty-six out of our graduating class of 1966 are pursuing further academic training and it is hoped that this figure will continue to increase.

At the elementary level, we have introduced an organized physical education program so that now we have sequential organized activities in physical fitness in grades one through twelve. Results in this area have been most encouraging.

The business department in our high school now offers more to our students in business training with the advent of additional staff and business machines. Our students now have available to them not only theory, but practical experience as well.

Our summer program "Project Encouragement" under Title I of PL89-10 was of significant value to the 53 pupils who participated. These students have shown major signs of improvement. In addition to this project, four other federally aided projects were introduced, and three more are being developed. As a result of these programs, we have increased opportunities for our students to improve, with the assistance of approximately \$30,000 in federal aid.

We are in our second year of an evening adult education program and it has been received very well with 22 different programs and an enrollment of 487 students. Our next hope is to introduce a Basic Adult Education program, with the total program financed by federal assistance.

In the past two years we have completely revised our method of reporting to parents the social and academic progress of their children. Our new permanent record folders are also working out most satisfactorily.

The School Committee's decision to retire the Center School has eliminated a facility that has but little justification in preparing today's pupils for tomorrow's world.

It is respectfully recommended that we expand our guidance services to include the elementary level and appoint a director of pupil-personnel services; that we engage the services of at least one teacher per elementary building to render intensive instruction for remedial as enrichment training; and that the appointment of a high school princi-

pal, as well as department chairmen at the secondary level, be accomplished at the earliest possible time.

At the present time, our elementary art teacher visits our 51 classes once a week. As in art, music is another area where creativity is instructed in color harmony, illustrations, figure construction, poster work, and design. It is recommended that this program could be better served with an additional teacher so that all classes could benefit of weekly visits by an art teacher.

Music at the elementary level is geared to develop a knowledge and appreciation of tasteful experiences in this art. Lessons are given in music reading rhythm band music appreciation and introduction to orchestral instruments. Music education at the elementary level could be better served with an additional teacher so that all classes could be visited once a week. As in art music is another area where creativity can be developed through self expression.

Our food services continue to improve with wholesome well-balanced meals without an increase in cost to our pupils in a rising market. With increased participation, we shall be able to "hold the line."

During the calendar year 1966, a total of 1229 individual health appraisals and athletic examinations were performed. Pupils in the first, fourth, seventh and tenth grades, as well as all pupils participating in our athletic programs are examined. With the close of 1966, our school physician, Dr. Harold S. Kost, will conclude his service to our department. It is hopeful that we can soon acquire the services of a physician who can serve this department as did Dr. Kost.

As for school transportation, it is recommended that a professional survey be made of all bus routes at the earliest possible time in anticipation of the bid process which should occur no later than June.

The following have left our staff as of June, 1966:

John Bibeault, to teach in Woonsocket, R. I.

André Bilodeau, to teach in Woonsocket, R. I.

Carol Sullivan, to be married.

Susan Briggs, to stay at home.

Meredith Halstead, to teach in Gloucester, Mass.

Patricia Iseman, to stay at home.

David Joly, to teach elsewhere.

Lorraine Kelly, to go into business.

Patricia Mansell, to teach in Natick, Mass.

Ruth Robidoux, to stay at home.

Paul Hurd, to teach in Holliston, Mass.

David Milligan, to teach elsewhere.

Ruth Laramee, to be married.

Helen Bann, to teach in Medfield, Mass.

John Clegg, to teach in Medfield, Mass.

Judith Shah, to stay at home.

I have made several recommendations in this report which I respectfully submit for your most serious consideration. Since it has been reported that we have the fastest growing school system in Massachusetts, and in light of our projected enrollment, intensified action for additional facilities is recommended lest we be on double sessions in the school year 1968-1969.

"The strength of democracy lies in the number of its educated citizenry."

There are many organizations, town departments, committees and individuals to whom gratitude is due for helping to achieve our quest for excellence in Bellingham education. May I therefore express my appreciation for the energies exerted by all components of our community who have assisted throughout the past year.

Respectfully submitted,

ANTHONY C. MINICHIELLO,

Superintendent of Schools

***HIGH HONORS

*HONORS

It is most appropriate that this new elementary school be named after Bellingham's number one citizen in the field of elementary education, Miss Clara Macy.

Statistics would tell us that Clara Macy began her teaching career in September of 1914 in the North School on Hartford Ave. in North Bellingham, and continued in that capacity in the same building for fifty successive years. In that very school she received her own elementary education, without the benefit of such conveniences as water and electricity. But figures alone cannot tell the story of the lifetime of a dedicated human spirit trying to guide others in the intelligent pursuit of knowledge.

Always in the background during that half-century of devoted teaching was the remembrance of her Franklin High School class motto: "Sail on, Sail on". In her world of elementary education, Clara Macy tried to do just that. In addition to teaching the 3 R's., she endeavored to nurture in each child the desire to learn, to study, to achieve, to respect one's fellow man, and to live constructive lives in this twentieth century. This was her dynamic contribution to the profound ocean of learning.

Just as her own principal, Miss Frances Hallier, had inspired Clara Macy to become a disciple of learning, she, in turn, has instilled in others the desire to give of themselves in a chosen field. Housewives, farmers, businessmen, truck driver, teachers and principals have developed under her tutorage.

Progress will come; machines may be used in teaching, but nothing can take the place of the human element in the learning situation—the dedicated Clara Macy's of the classroom.

Each of us is a better person for having lived where her influence and inspiration is felt. With gratitude we have dedicated this school to her, hopeful that some measure of her spirit of devotion to life and education will always grace these walls.

NOTATION: Is Still Living

Financial Assistance

The Blackstone Valley Vocational Regional School District is indebted to many organizations, governmental and private, for financial and material assistance during the past year.

In the month of January the Superintendent-Director went to many of the government depots from Burlington, N. J. to Stockton, Calif. to inspect and select machine tools for the new vocational-technical school. As a result of these inspections the Regional School District was able to acquire approximately \$140,000 worth of equipment free of charge, other than the cost of transportation and insurance.

We also received from the Federal Government a grant of \$207,800 under the provisions of Public Law 88-210 for the construction of the new regional school. This coupled with a grant of \$55,625 received last year makes a total of \$263,425 that we have received to date for construction purposes.

A special grant of \$51,275 was given by the Federal Government under the provisions of the George-Barden Act to be used to pay for the salaries of the professional staff.

The Commonwealth of Massachusetts, through the School Building Assistance Commission, made a grant of \$50,002 for the construction of the new school. Last year we received a grant of \$93,925 for preliminary planning costs which makes a total of \$143,927 that we have received from the State to date.

The State Surplus Property Division has also been of assistance by providing many pieces of equipment, numerous small tools, and large quantities of metal at a very nominal cost.

Private corporations such as the Draper Corp. of Hopedale, the Ford Motor Co and the Tektronix Corp. have also made substantial gifts in the form of equipment and training materials.

Mrs. Joseph W. Zeller of Douglas, the wife of the late Prof. Zeller, presented many of the technical books from her husband's library to the library of the Blackstone Valley Regional Vocational Technical High School.

We wish to take this opportunity to express our appreciation for the contributions made by Mrs. Zeller and the above organizations who have made it possible to provide better facilities for the youth of the region.

Construction

Progress in the construction of the Blackstone Valley Regional Vocational Technical School was right on schedule during the first few months of 1966 and it seemed as if we would be able to open the new school in September as planned.

In the month of June our plans for opening in September were given a severe jolt due to a strike involving the plumbers and the steam fitters. For nine frustrating weeks progress at the school dragged on at a snail's pace, which of course made it impossible to open on September 7 as we had expected. As soon as the strike was settled an all-out effort was made to get part of the building finished so that we could commence classes as soon as possible.

Finally on September 26, 1966 the Blackstone Valley Regional Vocational Technical High School became a reality when the doors were opened for the first time to the 132 boys from the thirteen towns of the Regional School District. At the end of the year the school was about 95% complete and we hope to have the entire school in operation for the beginning of the second term at the end of January.

Pupil Selection and Curriculum

During the months of January and February all the schools in the member towns were visited by the Superintendent - Director in order to give information to the boys in the eighth grade about the courses that would be offered at the Blackstone Valley Regional Vocational Technical High School. At that time applications were given out and the boys were requested to indicate their first, second, and third choices among the following courses: Auto Body Repair, Auto Mechanics, Mill and House Carpentry, Drafting, Electronics, Machine Shop, Metal Fabrication, and Plant Maintenance. At the same time each school was asked to fill out an information sheet for each pupil who had filed an application.

At a later date each applicant was given a series of aptitude tests involving verbal reasoning, numerical ability, mechanical reasoning, abstract reasoning, and spatial relations. The scores on the above tests and the information sheet provided by the sending school were evaluated in order to produce a profile of each applicant's characteristics. Each applicant's profile was recorded on a compilation sheet which served to identify the most qualified students in each town. Every effort was made to admit the best qualified boys in each town, to give them their course preferences, to distribute the courses as equally as possible among the towns, and to select each boy for the course in which he appeared to have the best chance of success.

Originally, we had planned to admit 108 boys in the first year but we finally enrolled 132 boys on the opening day of school because we had far more qualified applicants than we had expected. Even though we accepted about 25% students than we had planned for, we still had scores of boys who were qualified but who could not be admitted due to a lack of space.

The operation of the school to date has proceeded very satisfactorily in spite of the incomplete facilities. The enthusiasm and cooperation of the student body and the staff has been most gratifying.

We are proud of the fact that the Blackstone Valley Regional Vocational Technical High School is the fourth school of this type in the state of Massachusetts. It is a fine testimonial to the many individuals who have worked tirelessly over a long period of time to create a school which will become an ever more valuable asset to all the citizens of all the towns it serves.

Apportionment of Costs Incurred by the District

(A) Classification of Costs

For the purpose of apportioning assessments levied by the District against the member towns, costs shall be divided into two categories: capital costs and operating costs.

(B) Capital Costs

Capital costs shall include all expenses in the nature of capital outlay such as the cost of acquiring land, the cost of constructing, reconstructing and adding to buildings, and the cost of remodeling or making extraordinary repairs to a school building or buildings, including without limitation the cost of the original equipment and furnishings for such buildings or additions, plans, architects' and consultants' fees, grading and other costs incidental to placing school buildings and additions and related premises in operating condition. Capital costs shall also include payment of principal of and interest on bonds, notes or other obligations issued by the District to finance capital costs.

(C) Apportionment of Capital Costs

Capital costs shall be apportioned annually in December for the ensuing year as follows:

- (1) Each member town's share of the capital costs incurred in connection with the construction, equipping and placing in operation of the initial district school building, including the payment of principal of and interest on bonds, notes or other obligations of the District to finance such capital costs, shall be

determined by computing the ratio which the sum of its public school male pupil enrollments in grades nine through twelve, inclusive, on October 1 of the three years next preceding the year in which the Committee votes to authorize the incurring of such capital costs bears to the sum of the public school male pupil enrollments in grades nine through twelve, inclusive, of all the member towns on October 1 of the same three years; and in the case of capital costs consisting of the payment of principal of and interest on bonds, notes or other obligations issued by the District, the ratio shall not be changed during the period in which such bonds, notes or other obligations are outstanding, except as provided in subsection VII (A). For the purpose of this clause (1) of Section (A) above, public school male pupil enrollments shall be defined as the number of male pupils in grades nine through twelve, inclusive, residing in each member town and receiving education at such town's expense.

*Ratio is each member town's share of the capital costs.

*The method of calculating the ratio for each town is shown on pages 8, 9, and 10 of the 1965 Annual Report.

(E) APPORTIONMENT OF OPERATING COSTS

Operating costs for the first calendar year next following the establishment of the regional school district and for every calendar year thereafter shall be apportioned to the member towns on the basis of their respective pupil enrollments in the

regional school. Each member town's share for each calendar year shall be determined by computing the ratio which that town's pupil enrollment in the regional district school on October 1 of the year next preceding the year for which the apportionment is determined bears to the total pupil enrollment from all the member towns in the regional district school on the same date.
